Community Meeting at Webster Elementary School

Neighbors, parents and other members of the school community are invited to a briefing on the existing Measure E new Heating, Ventilation and Air Conditioning (HVAC) project as well as the Interim Housing project for Webster Elementary School.

Measure E improvements for HVAC and related work for Webster Elementary School is anticipated to start in Summer 2018. Additional related work includes ADA accessibility improvements, utility infrastructure upgrades and various interior improvements such as flooring, ceiling and lighting.

This is possible due to voters' approval last November of the \$1.5 billion school bond initiative, known as Measure E.

In addition, LBUSD continues to prepare interim classroom space at various school sites that will accommodate students while the permanent structures at their schools are improved. Webster Elementary School is one of the selected Interim Housing sites, and will accommodate their own staff and students during the HVAC project. The Interim Housing project is scheduled to start January 2018.

To learn more about how these projects will affect your neighborhood and how we plan to minimize inconveniences related to parking, traffic and noise, join us for this upcoming meeting.
