Community Meeting at Riley Elementary School

Neighbors, parents and other members of the school community are invited to a briefing on the existing Measure E new heating, ventilation, and air conditioning (HVAC) project for Riley Elementary School.

Measure E improvements for HVAC and related work for Riley Elementary School is scheduled to start in January of 2018. Additional related work includes accessibility improvements, ceiling / lighting renovations, painting and infrastructure upgrades.

This is possible due to voters' approval last November of the \$1.5 billion school bond initiative, known as Measure E.

In addition, LBUSD continues to prepare interim classroom space at various school sites that will accommodate students while the permanent structures at their schools are improved. Riley Elementary School is one of the selected Interim Housing sites.

To learn more about how this project will affect your neighborhood and how we plan to minimize inconveniences related to parking, traffic and noise, join us for this upcoming meeting.
