Community Meeting at Garfield Elementary School

Neighbors, parents and other members of the school community are invited to a briefing on the existing Measure E new Heating, Ventilation and Air Conditioning (HVAC) project for Garfield Elementary School.

Measure E improvements for HVAC and related work for Garfield Elementary School is anticipated to start in January 2018. Additional related work includes ADA accessibility improvements, utility infrastructure upgrades and various interior improvements such as flooring, ceiling and lighting.

This is possible due to voters' approval last November of the \$1.5 billion school bond initiative, known as Measure E.

Garfield ES students and staff will remain on campus during the renovation. Construction will occur in phases in order to minimize disruption to the school.

To learn more about how these projects will affect your neighborhood and how we plan to minimize inconveniences related to parking, traffic and noise, join us for this upcoming meeting.
