## Notice to Neighbors

December 18, 2012  
Ground Preparation at Browning School Site

Dear Neighbor,

As you may be aware, the Long Beach Unified School District is planning to build a small high school at the Browning site in your neighborhood. As a means to keep neighbors and residents around the site informed, the District will be sending occasional notices to your households. In the coming weeks, work crews will be exporting large amounts of soil, as we prepare the site for future construction of buildings. This will result in increased truck traffic and noise in the neighborhood during daytime working hours. This export activity is scheduled to commence December 27, 2012 and will take place for about three to four weeks.

Future construction of the school buildings is not anticipated to start until the summer of 2014. The District will provide additional communications to the neighborhood to keep you apprised of future construction activities.

We appreciate your patience as we are making every effort to minimize disturbances to neighbors and sincerely regret any inconvenience this may cause you and your household members.

Please feel free to contact Vivien Hao, project communications coordinator, at (562) 997-7550 or at [info@measurek.net](mailto:info@measurek.net) with questions or concerns. For more information about Measure K projects, visit [www.lbschools.net](http://www.lbschools.net) and click on Measure K Construction. Thank you for your support and continued patience.

Sincerely,

Carri M. Matsumoto  
Executive Director  
Facilities Development & Planning Branch
