

## MEASURE K SCHOOL BONDS Building for 21st Century Learning

**UPDATE**  
SPRING 2016

## High School Safety Upgrades

With campus safety among the top priorities of the Long Beach Unified School District, a new \$2.3 million security system is being installed through Measure K funding.

The system provides high quality video monitoring throughout high school campuses, and it offers operators in a central dispatch location the ability to monitor activities 24 hours a day.

## Community Clarifies Priorities

Some of the top priorities of parents, students, staff and other community members include attracting and retaining excellent teachers, maintaining school safety and repairing or renovating aging facilities. That's according to more than 1,200 responses to recent online questionnaires and community surveys.

## KEEPING IT LOCAL

Designer Updates Auditoriums

Casey Chapin loves the challenge of creating 21st Century learning environments while respecting the original design of historic buildings.

That's why he's thrilled to work on the team from LPA Inc., the architecture and engineering firm that has completed modernization plans for two historical auditoriums in the Long Beach Unified School District.

## Did You Know?

- Two-thirds of local schools were not built with air conditioning, and the remaining schools have air conditioning systems that are at or nearing their end of life.
- Removal of outdated portables has freed up space for playgrounds and landscaping on dozens of campuses.
- More than \$3 billion in repairs and improvements beyond what is available through Measure K are needed throughout the school district.
