## Fact Sheet

6/10/13

# Perry Lindsey International Studies Magnet Gymnasium

**Architect:**

HMC Architects, Inc.

**Pre-Construction Consultant:**

Roebbelen-Daum

**Project Manager:**

Erin Scott-Keith

**Location:**

5075 Daisy Ave.  
Long Beach, CA 90805

**Construction Budget:**

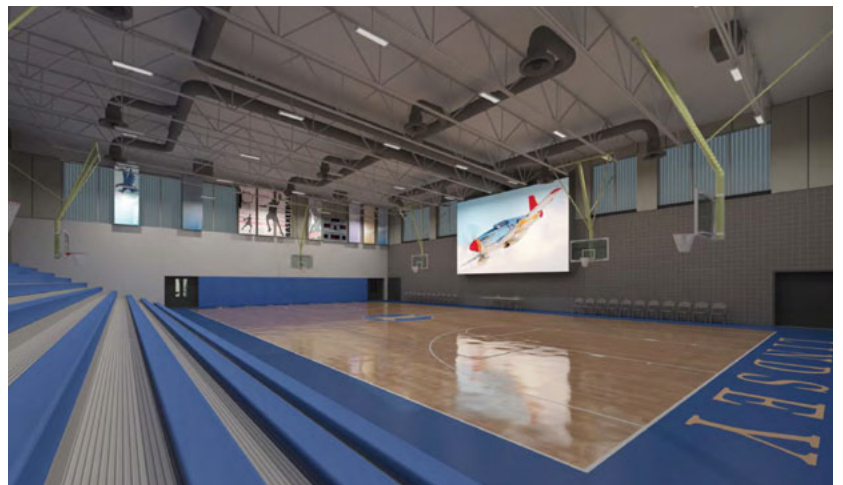

\$8.4 Million

**Funding Sources:**

Measure A and Capital Facilities Funds

**Projected Opening:**

Fall 2014

## OVERVIEW

This project includes the construction of a 14,000 square feet gymnasium with locker/changing rooms, coach's office and restrooms, as well as a 330-foot long soccer field.

The gymnasium entry features a legacy courtyard with Japanese maples, whose red leaves will serve as a reminder of the heroism of the school's namesake, Perry Lindsey, a member of the Tuskegee Airmen. Known for their fighter planes' "red tails", this group of African American U.S. Army Air Corps pilots were among the most decorated in World War II.

The project also includes parking lot improvements such as increasing the number of spaces and installing lighting.
