Community Meeting at Kettering Elementary School

Neighbors, parents and other members of the school community are invited to comment on the California Environmental Quality Act (CEQA) document circulating for public review for the Kettering Elementary School Interim Housing Project.

Kettering ES Interim Housing project consist of adding 12 portable buildings, expanding the parking lot, and creating a bus drop off on the Kettering ES campus. This interim housing will first house Kettering students during the Kettering ES HVAC project, and then will house 3rd-5th graders the seven school sites listed below as those sites undergo HVAC projects.

On August 22, 2017 the CEQA document was placed at the Long Beach, Signal Hill, and Lakewood libraries, the District Facilities Office and Board Building, as well as Kettering ES, Mann ES, Bixby ES, Fremont ES, Naples ES, Bryant ES, Gant ES, and Prisk ES for review. You can also find the document at the following link <http://lbschoolbonds.net/kettering-portableclassroom.cfm>. The review period for the CEQA document ends at 5:00pm on September 21st, 2017.
