

## Prisk Second Community Meeting Questions & Answers June 2020

#	Question	Answer
1	What is the progress?	Public works projects are an essential government function and will remain on schedule. Contractors were all directed to comply with social distancing protocol and have measures in place to ensure the safety of their workers and the community. Construction remains on track to complete in one year. Due to the nature of this work, there are many unknown and/or unforeseen issues that could cause delays. Starting the project early gives our Contractor a head start to identifying and resolving issues before they result in difficulties with classroom usage. At this time, we are not adjusting the expected completion timeline.
2	When is the project expected to be completed?	
3	Will the timeline change due to school closure?	
4	Is it possible to start repairs now so students do not have to be relocated to another site?	
5	Will it be ready by the new school year? And how will it impact the students?	
6	How will construction impact school drop off and pick up zones?	There will be no impact with drop off and pick up zones during construction.
7	Will Prisk be entirely closed?	No, Prisk will not be entirely closed. Construction will have phases to complete the work while students are in session.
8	Will streets around Prisk, especially the street between Stanford and Prisk be closed?	No streets will not be closed during construction.
9	Will the construction of Prisk impact the students at Stanford?	There will be no impact on Stanford students during construction.
10	What will parking look like for Stanford families?	There will be no impact with parking for Stanford during construction.
11	How will safety be maintained for all students near the construction site?	Fencing and access points will be set up and moved as necessary to adjust with the construction work as needed all while maintaining the safety for all students during construction.
12	How will construction noise impact learning in the classroom?	Our construction team attempts to schedule the heavier activities during the summer and when class is not in session. We will work with the site administrator at Prisk and Stanford to adjust our work around priority

		school activities.
13	Will teachers be notified in a timely manner to get their classroom boxed and ready?	Administrators worked with the Facilities Move Team to develop an individual schedule and plan to pack during the month of May.
14	Are there special filters that will be used in the AC unit since Prisk is so close to the freeway?	Merv 16 filters will be installed at Prisk.
15	Can we see pictures of what our rooms will most likely look like when finished?	Please visit our bond page, lbschoolbonds.net, twitter or facebook account for pictures of finished rooms.
16	I understand that the district plans on sealing shut all but one window in classrooms with the new HVAC. How is this not a hazard in case of emergencies?	In accordance with Fire Code, windows are not a safe means of egress. Building codes do not identify a window as an emergency exit.
17	Why will we not be able to open the windows?	
18	Is there a way to reuse existing ceiling fans in classrooms after HVAC, with A/C, to circulate air?	As part of the bond efforts, ceiling fans are removed and not reinstalled. Newly air conditioned classes will be tested and balanced to ensure adequate air flow and circulation.
19	Will you be able to reuse these resources (ceiling fans)?	
20	Will we be able to keep the ceiling fans we had installed as a result of our fund-raising efforts?	
21	How can we ensure keeping our ceiling fans? Can teachers keep their ceiling fans?	
22	Would it be possible to save the ceiling fans and reinstall them so air can move around on days that don't need/require A/C?	
23	Can we save the ceiling fans for the teachers' rooms? Can they be saved and reinstalled during construction so that teachers don't need the a/c running full time?	
24	Will we be able to adjust the thermostat?	

**Long Beach Unified School District**  
**Bond Program Office**

25	Do the projects add trees to block sound and particles from the freeway? How about shade over play equipment? Is the playground more of a play area or parking lot?	Additional trees and shade areas are not included in the Measure E work, however it has been identified in the master plan and will be assessed at a future date.
26	Will teachers be able to park on campus again if the blacktop is being remodeled?	No. The asphalt surface is not planned for complete replacement.
